Hi Lily,

I had to make corrections to the first map I sent to you. The magenta line was covered, so I had to bring it back. Please look over the two maps and let me know if you have any questions or concerns.

Thanks,  
Cheryl Lee

Here is the most updated Radiological\_PRG\_Exceedences\_NoK40\_2016Nov3 file. I am currently working on the second Radiological map.

Thanks! Actually, can you make the "-4" a superscript?

Hi Lily,

No problem at all. So far I finished one of the maps. Let me know if you want to make any changes to it. If you are okay with the look, the colors, etc, let me know if this is okay to print at large poster size. I will proceed with the other Radiological map.

Thanks,

Dear Cheryl,

I appreciate your help!

You can put the captions wherever you think it makes sense so it .

For maps 1 & 2, please put the title in big letters

“Radiological sample results exceeded  $10^{-4}$  risk before cleanup”

For the map that does not show 0-2 foot depth, please write “for all depths”

For the one that does show 0-2 foot depth, please write “for shallow samples”

Also could you color these buildings in a color that stands out?

In Parcel B-1 (green) 104, 115,116, 117,125

Please label these “Artist Studios”

In Parcel E (bottom middle of the map, near the “D-1” label) please color Bldg. 606 and label it “SF Police Department”

Thanks!

Lily Lee

Sure thing. Where do you want them to go on these maps?

I realized that the titles on the pdf's don't give enough information for people to understand what's going on. Is it possible for you to add more captions or notes onto the pdf's before you print them?
